New construction project at Cala Romantica near Porto Cristo: Semi-detached houses

At the wildly romantic Cala Romántica, 159 new houses (semi-detached houses and detached houses) are being built in a fantastic complex with a community pool, wellness area, gym and community pool. The semi-detached houses offer 2-3 bedrooms, 2 bathrooms, living room, kitchen, private parking and a private terrace in a 200 m2 garden. Take the opportunity now and secure the favorable presale prices from € 380,000 plus VAT. The first construction phase of the project will be completed in autumn 2025 and the completion of the entire project is expected in spring 2026. The idyllic bay of Cala Romantica is a 100m long and 160m wide gleaming white sandy beach in the East of Mallorca between the port village of Porto Cristo and Porto Colom and creates an almost Caribbean flair on the sunny island.
